#### 4 MIS

##### Integratie services

\_\_\_\_\_

DMS/ZS

**RepositoryService**

- getRepositories
- getRepositoryInfo
- getTypeChildren
- getTypeDescendants
- getTypeDefinition

**NavigationService**

- getChildren
- getDescendants
- getFolderTree
- getFolderParent
- getObjectParents

**ObjectService**

- createDocument
- createDocumentFromSource
- createFolder
- createRelationship
- createPolicy
- getAllowableActions
- getObject
- getProperties
- getObjectByPath
- getContentStream
- getRenditions
- updateProperties
- moveObject
- deleteObject
- deleteTree
- setContentStream
- deleteContentStream

**VersioningService**

- checkOut
- cancelCheckOut
- checkIn
- getObjectOfLatestVersion
- getPropertiesOfLatestVersion
- getAllVersions

**Multi-filingService**

- addObjectToFolder
- removeObjectFromFolder

**DiscoveryService**

- Query
- getContentChanges

**RelationshipService**

- getObjectRelationships

**PolicyService**

- applyPolicy
- removePolicy

**getAppliedPolicies**

- ACL Service

getACL  
applyACL
